

Camp Date: September 25 - 27, 2020

Fall Camp

ON YOUR OWN.

This is a great chance to do camping where each scout sleeps in their own tent, one scout per tent. Buys and cooks their own food. Units could hike, work on Tote-N-Chip, sit around the camp fire, etc. A perfect chance to get your first year scouts to experience camping and gain those skills for rank advancement.

No buildings will be open including the Shower House. Each unit can tent camp in a camp site first come first serve. The cost will be \$4 per person which will include your camping fee. No patch to commemorate the event.

This is a chance to just get out and camp with your unit.

Camping should only take place following the guidelines from the States Department of Health and or Center for Disease Control. There is no formal national policy on social distancing in tents. The Minsi Trails Council strongly recommends following the CDC guidelines as it relates to camping.

There is no prohibition on tenting alone if logistics can accommodate that request. As always, all BSA youth protection policies and the Guide to Safe Scouting must be followed.

North Valley District's last Fall Camporee is: No particular program, just an opportunity to get out and camp. Due to COVID, there are rules. On your own means each scout should bring their own food and cook it on their own.
